# Guinot facial treatments

## Guinot Skin Care Treatments

Ravin' Beauty offers a full range of Guinot skin care products. All therapists have been fully trained by Guinot to offer clients expert advice and give truly personal care and attention to your skin care requirements.

With more than 30 years of professional skin care experience, Guinot treatments methods and formulas are at the leading edge.

At Ravin' Beauty we offer exclusive Guinot treatments including the renowned Hydradermie facial - the most advanced facial for deep cleansing, hydrating and revitalisation of the skin - designed to restore the skin's natural beauty.

NEW TECHNOLOGY has arrived at Ravin' Beauty and we would like to introduce the Hydradermie2 a newly enhanced facial treatment. The creation of 2 new electrodes, one positive, one negative allow for complete penetration of both positive and negative ions and with the introduction of a new negative roller allowing for an increase in ionisation up to 38% - To increase performance further new gel serums feature negatively charged ingredients, DNA and Vitamin C. All Paraben Free.

## Hydradermie<sup>2</sup> Facial Treatments

**Double the ionisation-double the results - Ravin' Beauty is one of the select number of top Guinot salons in the country to offer the newest technology of the Hydradermie<sup>2</sup> in salon.**

The facial uses the Hydraderm Machine, manual massage and bespoke plant extracts to restore the skin's natural beauty. After analysing the client's skin your therapist customises the products used in the facial to treat – normal – dry – sensitive – oily – mature – or hyper pigmented skin. Suitable for all skin types.

Once the skin is cleansed and gently exfoliated, your therapist applies the selected serums and gels then uses mild galvanic current to help active ingredients penetrate deep into the skin to remove impurities and toxins. Today's technological developments give Hydradermie<sup>2</sup> double the results due to double ionisation for optimum results. High frequency action is used to oxygenate and boost cells before a massage and a customised mask. A touch of moisturiser for eye contour, face and neck concludes the treatment.

### Hydradermie<sup>2</sup> Double Professional Facial

**£55.00**

Exclusively, customised treatment using Galvanic & High Frequency, Double Ionisation penetrates the active ingredients deep into the skin for optimal results, Customised for each skin type with Rehydrating, Regenerating and Deep cleansing benefits.

## Paramedical treatments

### Intense Pulsed Light (IPL)

#### Free consultation

Ultimate Skin IPL is a safe, non-invasive treatment that can be used on all areas of the body for both men and women.

### Permanent Hair Reduction

IPL (Intense Pulse Light) uses pulsed light to destroy the follicles of growing hair. The light is absorbed by the melanin which is the substance that gives the hair its colour. As the light is absorbed, heat is generated which destroys the hair follicles rapidly and permanently.

### Skin Rejuvenation

**£150.00 Course of 4 £500.00**

This treatment is performed over the whole face. The intense pulsed light causes a mild inflammatory response in the upper layers of the dermis, leading to the release of fibroblasts which stimulates the collagen in the skin to contract and tighten. In turn your skin will also start to produce new collagen to further tighten the overall appearance of your skin.

### Removal of Vascular Red Veins

**Small area £80.00 Large area £90.00**

IPL is highly effective in reducing the appearance or eliminating broken blood vessels and thread veins on the skin surface. Pulsed light is absorbed into the vessel, coagulating the blood. The heat produced will radiate out into the walls of the vessel which then collapses.

### Pigmentation Removal

**Small area £80.00 Large area £90.00**

There are many types of pigmentation issues, including photo-damaged from exposure to the sun, ageing, medication and hormones. Whatever the cause, IPL breaks down the pigment effectively and safely while rejuvenating the skin.
